15) Click in each field and enter the information provided to you on the last page of this manual. If the technician has circled IP/Domain on the last page of this manual, just click on HiDDNS and click IP/Domain. If HiDDNS is circled, leave the register mode as is. Fill in the rest of the fields with the provided information (device domain/ip address, user name, and password). Finally hit Start Live View at the bottom and your cameras should come up.
